Education costs reflect the greatest increase (up three mills), public works is up one mill due to increased debenture costs to cover the building of school additions this year, and the hospital tax is up one mill to cover the increased requisition from the provincial government.

Increase H'way 23 Work

Further information regarding provincial highway work in this area this year has been received hy the Advocate from Rev. Peter Dawson, speaker of the House and MLA for Little Bow.

Provision has been made to increase the amount of work to be done on Highway 23 this year in preparing it for hard-surfacing and tenders have now been called for grading, gravel surfacing and other work on this highway for a distance of 16 miles—from the junction with Highway 24 to south of Blackie, a distance of some 16 miles.

As reported previously, some hard-surfacing will be done on Highway 24 this year. The Hon. Gordon Taylor, Minister of Highways, will address a public meeting at Mossleigh on Thursday, May 21, at 8 p.m., and will talk on highway construction and plans for Highway 24.

Old Eyeglasses Needed

Got any old eyeglasses around the house—ones no longer of any use to you? Next time you're downtown bring them with you and leave them in one of the boxes provided for that purpose in both drug stores, or at the Vulcan Clinic or Dr. Bernie Tonken's office.

The Vulcan Lions Club is joining with other Lions Clubs across the country in a "Bank of Light" campaign to collect old eyeglasses and eyeglass rims. These will be forwarded to a central clearing station and then shipped to India where a group of eye specialists, headed by eye surgeon Dr. M. C. Modi, is establishing free eye care camps. The lenses will be tested and classified, re-ground where necessary and issued free to people of India who otherwise would have no hope of getting eyeglasses to save their sight. Because of inadequate nutrition and other factors, poor eyesight is all too common in India and this "Bank of Light" project is expected to save and improve the sight of many, many people.

Arrangements to have the used eyeglasses admitted to India duty-free have already been made and transportation companies are co-operating wholeheartedly in providing free shipping.

Only the lenses and frames are needed—cases cannot be shipped—so dig out those old eyeglasses now. They may help save someone's sight.

Dr. M. E. Koziol is in charge of the project for the Vulcan Lions Club.

Wet Snow Brings Welcome Moisture

Fields and roads were just drying out from last weekend's snowstorm when snow again started falling late Monday evening of this week and continued most of Tuesday. The weekend snowfall was driven by a strong wind and ended up mostly in ditches and stubble fields, but this week's snow was of the wet variety, most of it melting as it hit the ground and bringing valuable moisture to the fields.

Some seeding had been done in the district before the snowfall, but weeds have been slow in growth and most farmers had not yet started field work.

At Berrywater, this week's storm brought .99 inch of moisture, according to the official record kept by David B. Sim. That part of the district had been very dry and the rain and wet snow this week was very welcome.

More Business Places Modernize

Continuing the modernization trend on Vulcan's main street, two more local business places now present a very attractive and entirely different appearance than they did a few weeks ago.

McAskile's Men's & Boys' Wear has undergone complete renovation, both inside and out. The front of the store was torn down and rebuilt with cedar log siding, which provides an attractive frame for the large display windows, which have been set in metal casings. Inside, the walls have been lined with peg board, painted in soft pastel colors as a background for shelves and displays and new floor fixtures are of the open display type. A separate section of the store is given over to the display and fitting of shoes and all wall displays are lighted by concealed fluorescent fixtures. Marble pattern inlaid linoleum adds to the new brightness of the interior.

At the Vulcan Electric Co., a new ultra-modern front has been created, with red miro-wall setting of the large plate glass windows which have been set in at an angle to meet the glass and metal door at one side. The upper part of the new front has been finished in pale yellow miro-wall, adding to the very attractive effect of the new front.

Govt. Approves Natural Gas Franchise ---Vulcan Ratepayers To Vote May 29

Vulcan ratepayers will go to the polls on Friday, May 29, to vote on the granting of a franchise to the Canadian Western Natural Gas Company to supply residents of Vulcan with natural gas. Meanwhile, at Champion, Carmangay and Barons on April 30, ratepayers voted almost unanimously to grant Canadian Western 20-year franchises for the supplying of natural gas to the three villages, with 248 votes in favor, one against and two spoiled ballots.

At Champion, the by-law was favored by a 109 to 0 margin; at Barons it was 73-0 in favor and at Carmangay, it was 66 to 1 in favor, with two spoiled ballots.

Official notice that the Vulcan by-law covering the granting of a 20-year franchise to Canadian Western has been approved by the Board of Public Utilities Commissioners was received at the town office on Monday of this week and on Tuesday a special meeting of the town council was held to give second reading to the by-law. Three weeks must elapse between first publication of the by-law and the voting thereon by the proprietary electors of the Town.

The result of the vote is certain to favor the granting of the franchise, and Canadian Western is including the servicing of Vulcan with natural gas in its construction plans this year.

The agreement to be signed by the Town of Vulcan, the Villages of Champion, Carmangay and Barons and the gas company provides for the granting of 20-year franchise, renewable for ten years.

The rates for gas shall be such as are agreed upon by the parties, and failing such agreement, at prices fixed by the Utility Board. The schedule of rates initially in effect will be $2.50 per month for the first two MCF and 75c per MCF per month for each additional MCF. Minimum monthly charge for each consumer will be $2.50.

An optional rate will be available on annual contract to all consumers whose annual consumption is more than 552 MCF. This rate bears a fixed charge of $12.50 per month, with gas at 50c per MCF per month and a minimum charge of $12.50 per month.

University Chorus Well Received At Champion

The 30 voice University of Alberta mixed chorus, accompanied by members of the Edmonton Symphony Orchestra and conducted by R. S. Eaton, was enjoyed by a capacity audience at the Champion School auditorium, Friday, May 1. Soloist for the evening was G. K. Green, Specialist in Music for the Dept. of Extension.

Mr. Eaton expressed his pleasure with the warm and appreciation response of the audience and hoped that the chorus would have the opportunity to perform in Champion another year.

Mr. Green expressed his willingness to have a choral workshop conducted in Vulcan next fall if he could have assurance that a large enougn group could be assembled. In order that arrangements can be made, anyone who would be interested in taking part in such a group should notify Arthur Jones before May 23.

Shower Honors Sharon Paul

A miscellaneous shower was held in honor of Sharon Paul at the home of Mrs. A. Bride, Brant, on Friday night. The playing of contests was provided for entertainment which were enjoyed by all.

After Sharon had ably thanked those present, a delicious lunch was served by the hostess, Mrs. E. Hall and Mrs. H. Bride.

Among those present were Mrs. Emma Walbauer and Mrs. Esther Rhodes, the groom's mother and sister, Calgary.

Break-ins At Kirkcaldy and Corner Store

The Mallory & Carnegie store at Kirkcaldy, five miles south of Vulcan and the Corner Store, 12 miles north, were the scenes of break-in and entry by unknown thieves Wednesday night of last week.

At Kirkcaldy, the cash register, which only contained silver, was taken, as well as cigarettes and candy bars and at the Corner Store a new television set, cans of grease and oil and other articles were stolen. Most of the loot has since been recovered, found in a building on a deserted farm near Vulcan, but the cash register from the Kirkcaldy store was badly smashed.

The break-ins are being investigated by the RCMP.

Hi-C's Hold Inter-club Meeting

The Hi-C Group of the Vulcan United Church held a very successful inter-club meeting on Sunday with the Granum club and also young people from Champion being present.

The program consisted of games, presentation of a film strip entitled, "Do You Dig Friendship" followed by a buzz session in which the individual groups had a discussion to view their ideas on the topic of the film. Upon the completion of this buzz session, Glen Park of Granum chaired the meeting for the presentation of the various group reports. A scavenger hunt gave the young people a chance to enjoy a little exercise and fresh air prior to dinner which was convened by the Couples Club of the church.

Following dinner members of the Vulcan club presented a short program with Michael Jamison and Leighton Lucas reciting; Brian Erickson played several selections on his accordian, and Margaret Giles, Marion Knive, David Collier and Jack Ruark entertained with an amusing skit.

At the evening church service which followed members of the Hi-C Group assisted the minister Rev. Donald A. Sharpe when Anne Jamison read the scripture, Kathleen Knive led in the responsive reading and Pat Blair of Granum led in prayer. Special music in the form of a quintette was rendered by Myrna Jamison, Margaret Giles, Ann Jamison, Marion Knive and Valerie Richardson, with Mrs. W. W. Almond playing the organ.

While sunflowers have considerable drought resistance they also respond well to irrigation and there is good reason to believe that they should become an important crop in the new irrigated area between Taber and Medicine Hat.

Green Light For Natural Gas

It is good news that the Board of Public Utilities Commissioners has approved Vulcan's gas bylaw to authorize the granting of a franchise to the Canadian Western Natural Gas Company for the supplying of natural gas to the residents of the town. The bylaw must still be ratified by the ratepayers of the town, but it is a foregone conclusion that overwhelming approval will be given when the vote is held on Friday, May 29.

It is fortunate that Central Gas Utilities (Vulcan) Ltd., did not hold a franchise for distribution of gas in Vulcan, for had they held an approved franchise the coming of natural gas could have been further delayed. The town granted Central Gas permission to use the streets and lanes for their distribution system but their application for a franchise was defeated by a vote of the ratepayers. Negotiations over the price to be paid by Canadian Western for the Central Gas plant and distribution system in Vulcan occasioned further delay, but this matter was finally settled this spring and the sale approved by the Central Gas directors and shareholders.

The granting of franchises to Canadian Western in the villages of Barons, Carmangay and Champion has been approved, in votes held April 30, by the proprietary electors of those villages and construction of the gas line, from the take-off point near Monarch through to Vulcan, will start as soon as equipment is available this spring.

The rate to be charged for natural gas on this line is the same as the proposed rate for other towns on new lines being built by Canadian Western this year, and is a little less than half the rate now being paid by Vulcan customers of Central Gas Utilities. Heating with gas at this rate is said to be competitive to coal and about one-third less than the cost of oil heat. The rate is considerably higher than that charged in the cities or in the towns on the neighboring Macleod line where the gas pipeline was laid many years ago, but will still effect considerable savings in the fuel bills of new consumers.

Young People's Week

Thirty-five farm boys and girls will have the opportunity to attend Farm Young People's Week at the University of Alberta under sponsorship of the Alberta Wheat Pool. The course is being held in Edmonton from June 2 to 11.

This year the young people will be sent from the Wheat Pool's odd-numbered sub-districts.

Any farm organization may nominate a farm boy or girl between the ages of 16 and 26 years. In doing so, preference should be given to the young people who are actively participating in community activities as this will be taken into consideration when the selection is made. Nomination forms and sub-district maps are available from Wheat Pool agents.

As well as paying transportation costs, the Alberta Wheat Pool will pay $15 towards the cost of room and board of each of the young people while at the short course.

78th BIRTHDAY. A surprise birthday party was held at the April meeting of the Eastern Star in Carmangay for Fred Whitmarsh. He was presented with a large birthday cake and a hamper of food from the members. Fred is well remembered by the people of the Carmangay and Champion districts, having served in the past as teacher for 20 years, and secretary to the hospital, town and community hall for many years.

In the picture Mr. Whitmarsh is seen with Donna Baldwin on his birthday as he prepares to blow out his 78 candles. Mr. Whitmarsh is enjoying good health and still takes a great interest in community activities.

Tourist Camp

A fast-flowing water well just above the Little Bow River, a mile north of Carmangay on Highway No. 23 came in Monday and will provide sufficient water to have a tourist camp.

The well was drilled for the Alberta Government which with the Carmangay Lions Club and village of Carmangay is working on a picnic grounds wayside table and recreation area on the banks of the river.

A tree planting program may be undertaken and in a few years the area will be a scenic picnic and camping spot for tourists and the population in the Carmangay and Champion area.

The well is 210 feet deep and the water was flowing at the rate of 60 gallons per minute on Wednesday.

ARMADA

Fire broke out at the Bill Lucas' farm last Thursday. This could have been a very costly fire if it hadn't been for the quick response of the local telephone operator who sent out the alarm. The damage resulted in a pile of lumber valued at $100 to $150. If there hadn't been a large number of fire-fighters many of the buildings would also have been destroyed, as there was a strong south-west wind blowing.

The high winds have also kept seeding at a stand-still the past week. On Friday night a snow storm brought the dust storms to a halt for the present.

Jesus said; "I go to prepare a place for you.

And if I go and prepare a place for you, I will come again, and receive you unto myself; that where I am there ye may be also.

—John 14:2-3

Paul mentions Christ's return in person in I Thessalonians 4:14-16

For if we believe that Jesus died and rose again, even so them also which sleep in Jesus will God bring with him . . .

For the Lord himself shall descend from heaven with a shout, with the voice of the archangel, and with the trump of God: and the dead in Christ shall rise first:

Then we which are alive and remain shall be caught up together with them in the clouds, to meet the Lord in the air: and so shall we ever be with the Lord.

* * *

For the Christian it could be the uppertaker instead of the undertaker.

Christ the Lord will come again,
None shall wait for Him in vain;
I shall then His glory see:
Christ will come and call for me.

WORLD FAMOUS racing driver Stirling Moss finds the new British "Triumph Tigress" scooter an ideal means of getting around London's traffic-laden streets. Here in Trafalgar Square—with the base of the famous Nelson's Column in the background—he pauses to make friends with a member of London's Mounted Police.

The "Triumph Tigress," which made its debut at the 1958 Motor Cycle and Cycle Show in London, is unique in having a 250 c.c. overhead twin four-stroke engine which provides ample power for serious touring. It will cruise at 50-55 miles per hour (80-88 k.p.h.) with a pillion passenger and a load of luggage and has a maximum speed in excess of 60 miles per hour (96 k.p.h.). The "Tigress" is easy to ride, with simple controls, feather light to use, and it has a completely enclosed engine and ample weather protection for the rider.

SERVICE BOARD NOTES

By H. S. Burns

A. M. Wilson and W. Lobay of the Field Crops Branch, Alberta Dept., of Agriculture, have recently supplied us with all particulars in regard to entering the weed essay contest, sponsored by the North West Weed Control Conference again in 1959. They state that Oct. 12 is the final date for essays to reach their office in Edmonton.

These are the rules governing the contest:

Any boy or girl 12-18 years inclusive within the states or provinces encompassed by the NCWCC who is 12 years of age and not over 18 years on Dec. 1, 1959 are eligible.

The contestant's family must be engaged actively in managing and operating the farm, it is not necessary to be living on the farm, but the contestant must be actively engaged in the operation.

The title is to be, "How we control weeds on our farm," and must not exceed 1000 words in length.

The essay shall be typewritten in ink in the English language, on one side of the paper only. The writer's name, address and age shall be on the reverse side of the first page. The title should be followed closely in writing the essay. The words "we" and "our" in the title are important guides in this respect. The essay may include practices planned for the future as well as those now in use.

The essays should be submitted to the District Agriculturist or Field Supervisor and together they will judge all entries to select a winner, then the best one chosen locally will be mailed to the Field Crops Branch at Edmonton, and as we stated previously, the winning essay must reach Edmonton by Oct. 12, 1959.

Provincial judges will select the top essays for a provincial winner, this in turn will be submitted for the scholarship competition.

The basis of judging will be subject material 75%. Method of presentation 25%.

There will be a $25 prize for the winner in each state or province.

The winner of the high scoring essay from the several states and provinces participating shall be awarded a scholarship to the value of $300. It will be of interest to prospective essayists to know that since the year 1955 there have been two $300 scholarships that came to Alberta and in addition two of the $25 prizes have also come to this province. This is an impressive record for Alberta and we feel sure that the potential is here and would like to see several entrants from this area.

Anyone wanting more information in regard to this forthcoming coming competition can obtain same by calling at our office.

THE IMPORTANCE OF FERTILIZER

Thousands of pounds of valuable plant nutrients are removed annually from our soil through poor cropping systems and bad cultural practices. In order to maintain and build up soil fertility all available sources of plant nutrients should be utilized. These include ploughing under green manure crops, working in farm manure and using suitable commercial fertilizers where recommended.

Fertilizers are playing a more important role in farming every year. In 1958 the sale of fertilizers and fertilizer materials, in Alberta, showed a 25 percent increase over 1957. The use of fertilizers where needed and at recommended rates pays dividends reports A. W. Goettel, assistant supervisor of Soils and Weed Control.

Now is the time to plan your cropping program and to consider the use of fertilizers for your crops and pastures.

HOW FERTILIZER BOOSTS YOUR PROFIT ON BARLEY

YOU CAN MAKE UP TO $9.00 PER ACRE MORE!

Actual field tests show how your net profit per acre of summerfallow barley is boosted by the use of Elephant Brand Fertilizer.

In the table below, note that the increased profit figure takes the cost of fertilizer into consideration. An increased profit of over $9.00 per acre is certainly worthwhile.

Fertilizer per acre	50 lb. 11-48-0 (Cost $2.70)*
Increased yield per acre	16 bu. (worth $12.00)
YOUR INCREASED PROFIT PER ACRE	$9.30
OR $930.00 ON 100 ACRES OF BARLEY	

* Fertilizer cost figures per acre are approximate.

When properly fertilized, barley grown on stubble land will show an equally profitable return per acre . . . For greater net profits per acre from any crop on any soil, contact your Elephant Brand dealer listed below for the right information.

It pays to use **Elephant Brand** HIGH ANALYSIS FERTILIZERS

GREEN — JESSOP

A lovely wedding was solemnized by Rev. William Morrison in the North Hill United Church, Calgary recently when Alice Fay Jessop and Gerald Arthur Green were united in marriage in a double ring ceremony.

The bride is the only daughter of Mr. and Mrs. R. N. Jessop of Arrowwood and was given in marriage by her father. The groom is the third son of Mr. and Mrs. C. W. Green of Mossleigh.

The bride chose a waltz-length gown of chantilly lace and net over satin. It featured a bodice of pearl sequins and mother of pearl seed pearls, long lily point sleeves and ruffled back skirt. Her chapel length veil was held in place by a crown of pearls and sequins. She carried a white Bible topped with a trailing bouquet of sweetheart roses. Miss Barbara Payne, cousin of the bride was maid of honor and wore a shrimp waltz length gown of chiffon with matching headpiece. She carried a cascade bouquet of yellow carnations.

The groom was attended by his brother, Douglas Green. The ushers were Donald Green, brother of the groom and Delbert Payne, cousin of the bride.

For her daughter's wedding, Mrs. Jessop chose a silk dress in blue and grey. Her corsage was of white carnations. The groom's mother, Mrs. Green wore a cinnamon colored dress with a white carnation corsage.

A small reception followed at the Isle of Capri. The bride's table featured a three-tiered wedding cake.

Burton Payne of Cardston, uncle of the bride proposed the toast to which the groom replied.

For going away the bride wore a beige sheath with orange and brown accessories.

After a short honeymoon in the States, Mr. and Mrs. Green will reside in Calgary.

KIRKCALDY

Friends of Mrs. Nellie McDougall are pleased to learn that she has returned to her home in Champion after being a patient in the Vulcan Hospital.

Sunday, Mr. and Mrs. Morley Scobie and family and Mrs. Angus Clarke visited friends and relatives in Calgary.

On Thursday of last week during the early morning hours, theives gained entrance in the Mallory-Carnegie store by breaking a window and then unlocking the door. They escaped with a cash register containing change and several packages of cigarettes. The break-in was found in the morning and police were called to investigate.

Two volumns of Winston Churchill's history of English-speaking people have been donated in the memory of Benjamin Franklin Cool at the Champion Library by the Kirkcaldy community.

Miss Hazel Row and Robert Ware of Calgary were visitors at the Spencer Louis home on Sunday.

THE GROWTH OF ETHIOPIA'S air services is a vital part of the country's development. The Government-owned Ethiopian airlines operates a network of frequent rural, as well as international, services. Thus, the domestic routes often enable producers in country areas to reach markets hitherto inaccessible. Two United Nations Specialized Agencies—the International Civil Aviation Organization and the World Meteorological Organization — have been helping the Government to ensure the efficiency and safety of the operations. Here, an Ethiopian airlines agent at Debra Tabor delivers the aircraft paper and manifest by horseback.

Letters to the Editor

The Editor,
Vulcan Advocate.
Dear Sir,

On the 1st of May, Mr. Pat Worthington, who has been the Veterans' Land Act representative in the area from Calgary south to Stavely, will turn over the supervision of the district to Mr. Lorne B. Mallett.

Lorne, an Air Force Veteran from the Second Great War, was established under the Veterans' Land Act in the Forestburg area of Alberta. He completed this establishment very successfully and the Veterans' Land Act Administration is very fortunate to obtain his service in taking over the supervision of this highly productive area.

Since taking over this district I have enjoyed the co-operation and confidence of a very large group of people, both Veterans and non-Veterans. I wish at this time to voice my deep appreciation for the kindly attitude shown by the people of this district towards myself and the Department I have represented.

My wife and I are taking an extended ocean trip and will not be back in Alberta until some time in August.

I highly commend Lorne Mallett to you and in leaving wish you all a very successful year.

Yours most sincerely,
Pat Worthington.

Dear Sir:

I would appreciate space to express my regrets that this area in southern Alberta will not be joining us this year in our hail suppression efforts.

It is so easy to doubt and do nothing for any number of reasons, some expressed in your paper by "Skeptical." It was only by ignoring and overriding our doubts and recognizing that a hail storm cost a person probably 100 times as much as nail suppression, that we tried it out and found it probably 90% to 95% effective.

While there have been disappointments and damage has occurred we realize that only by studying failure can success be achieved in this as in all things ever undertaken.

Contrary to "skeptical's" hint I spoke at meetings not because I was bought but because I hoped I could help to put an end to your big storms. As chairman of our local association over the past four years I believe the fact my neighbors knew me for a man who couldn't be bought contributed considerably to our success in organizing.

We look to you joining us in the not too distant future because if there is one thing a man can't afford to buy with everything he has or hopes for, it's a hailstorm.

Your truly,
J. T. Bishop,
Three Hills, Alta.

Dear Sir:

Upon attending the FWUA Conference held in Claresholm, I was saddened to see so few locals in District 12 represented. It is true that those there were very interested but being District 12 Secretary, I know that only a very few locals of District 12 were represented. I wondered if they believed that just because they belong to a joint local that they cannot attend. I would like to tell them that as long as they are a member of the organization they are very welcome to attend. I sincerely hope that more of you will feel free to attend another year.

I would also like to put in my two bits worth regarding Mental Health. Before I was married I spent some time nursing in the Provincial Training School in Red Deer and I agree with Mr. Miller in the fact that they find it very hard to face the public. There is no more shame to being mentally ill than there is to having your appendix removed and I feel that the sooner the general public realize this and get out and attend meetings and assists in anyway possible for the work that is being done along these lines, the sooner we will lessen the time of treatment and rehabilitation for these people. If it were a meeting to deal with some type of entertainment the hall would be filled, but because it is about Mental Illness, they stay at home. Let me say here you never know when someone you love may become mentally ill either from old age, disease or some other cause. Therefore I urge you to give of your time and money till it hurts, to get this worthwhile work done as efficiently as possible.

Yours sincerely,
District 12 F.U.A. Secretary
Mrs. Annabel Parslow.

An executive is a man who knows how to get things done, and who to get to do it.

Of Many Things

HOW MANY HYPOCRITES ABOUT LIQUOR?

You cannot advertise a bottle of beer in a Manitoba weekly paper. It is against the law. You might corrupt the family. At least, that's what the pressure groups tell the government. I wonder how many of those pressure-group members subscribe to the Reader's Digest?

Reader's Digest, says the editor of the Durham Chronicle, contains, in its Christmas issue, eleven full pages of beer advertising; 7 pages for whiskey; 4 pages for wine; 2 pages for gin, and one full page for rum. Many of these advertisements in this "family magazine" are in full, rich, appetizing color.

How many of the pressure-group hypocrites will cancel their Digest subscriptions? Not very many, I'll wager! Ministers will continue to quote it from the pulpit, others will praise its high moral tone.

I like Reader's Digest. I'll continue to read it. I am told that the publishers, Mr. and Mrs. DeWitt Wallace, are the very finest of people and very closely connected with the church. I know they devote a great deal of space to articles dealing with the spiritual side of man's nature, and I thank them for that. And while I am a non-drinker, I know that beer and whiskey exist and are purchased and consumed by better men than me, and I see no reason why they should not be advertised, and advertised attractively.

What I object to, and find morally reprehensible, is the attitude of the Manitoba government in banning such advertising from the weekly newspapers, who need the revenue, while at the same time allowing other publishers to flood the province with such blandishments. Maclean's leans heavily on liquor advertising; so do Saturday Night and Liberty magazines. Liberty is a very popular magazine in Manitoba, and you see many young people reading it. Maclean's is also popular with young and old alike. If they are to be corrupted by such advertising, the deed is already accomplished, without the intervention of our government.

If the government is not too dainty to engage in the retailing of liquor itself, surely it is being hypocritical in the extreme to take this attitude about liquor advertising.

Norgard - Doane Wedding Rites

A wedding of interest in the Vulcan district was solemnized Saturday, April 11, at the Vulcan United Church, when Donna Doane was united in marriage to Jack Everett Norgard of Claresholm.

The bride entered the church on the arm of her father, Orlo Doane of Vulcan. She was attired in a white taffeta ballerina dress. The simple lines of the fitted bodice and portrait neckline were accented by lace rosettes embroidered with irridescent beads and sequins. From the fitted waistline the skirt flared out in a semi-bustle effect. Her chapel length veil was held in place by a simple wide head band which was also embroidered with similar beads and sequins. Donna's shower bouquet was of red sweetheart roses. She wore a single strand of pearls, a gift of the groom.

The maid of honor and bridesmaid were cousins of the bride, Miss Carol Herdman of Calgary and Miss Marion Herdman of Claresholm respectively. They wore similar empire dress of red velvet with white feather headdresses and white fur muffs.

The groom was attended by Ken Norgard, brother, and Murray Alm, his brother-in-law. Guests were ushered to their places by Allen McKee and Arnold Norgard of Claresholm.

Mrs. Evelyn Staff of Fort Macleod sang "Because" during the signing of the register, accompanied by Mrs. Sharpe, wife of the minister on the organ.

The reception for some 50 guests was held at the home of the bride's parents where Stuart Douglass was master of ceremonies.

The groom's mother wore a printed blue silk dress with white accessories while the bride's mother wore blue lace. They both had corsages of pink carnations.

After the reception the bride changed to a red boucle wool dress toped by a charcoal borg shortie.

The many out-of-town guests wished the happy couple happiness before they left for a short honeymoon in the United States.

Mr. and Mrs. Norgard will take up residence in Claresholm where the groom farms.

SUNFLOWER SEED PRODUCTION

A big increase in the sunflower acreage in southern Alberta is expected this coming season, according to W. D. Hay of the Lethbridge Regional Research Station.

Last year 4,500 acreas were grown commercially, the first large scale production in this region. Yields, for the most part, ran around 700 to 1,200 pounds per acre, a profitable return at the contract price of five cents per pound.

Distribution of this crop ranged from the general southern part of the province to as far north as Strathmore. Nearly all the acreage was on dry land.

Weeds were troublesome but frost was no problem. Crops ripened before the first killing frost on Oct. 9.

Sunflowers first got a toe hold in southern Alberta in 1943 and 1944, when about 800 acreas were grown under the supervision of the Lethbridge Regional Research Station to satisfy the wartime need for vegetable oils.

Seed of the Mennonite and Sunrise varieties was distributed to 37 farmers from the Montana border to Delia on the north and between Claresholm on the west and Walsh on the east. Yields varied widely depending on conditions with a top yield of 1,380 pounds per acre. A few years later a Canning Company grew an excellent crop on irrigated land.
